## 1.0 ABSTRACT

The world today has gone mega in the financial/business phenomenon. Cryptocurrency investment is currently on the radar of most investors. There are new sets of wealthy people who bought cryptocurrency before the price explosion. It is never too late to start the journey.

This paper introduces a new model of cryptocurrency in which an independent organization sponsors children through existing child sponsoring websites. A novel concept of investment for wealth creation and impacting lives.

## 1.1

## INTRODUCTION

Reaching Star is a cryptocurrency token project for financial and economic empowerment. Its activities come with implementations of liquidity protocol. It has a reserve pooled for an asset as well as liquidity.

The reaching star network is an open-source and community-owned project used for investment and asset transfer purposes. The aim is to give individuals and corporate entities a means to access financial services. Its other aims include a financial system that gives hope to the needy.

It operates a centralized system as a way of ensuring successful transactions. The use of the intermediate currency RSTKN enables users to exchange currencies. As a payment technology, the ability for financial institutions to connect becomes a possibility. Already listed on the Binance smart chain, so investors can trust us.

Reaching Star was founded by Afonso Zhu He works with a team of experts to give top-notch service in the crypto space. They are committed to exceeding your expectations.

## 1.2

## VISION

The vision of Reaching Star is to merge investment with charity programs. For every investor, it is a chance at making passive income to increase one's financial base. You are guaranteed a win-win all the time as an empty pocket is never a choice. The introduction of decentralization and welfare of a child's needs is the sequel to none. Through Reaching Star communities can merge economic and social responsibility to promote the well-being of society.

## 1.3

## OVERVIEW

The emergence of cryptocurrency has created fascinating projects to connect the real world with the virtual one. This marriage has not only created wealth but economic empowerment for many.

Many cryptocurrency projects make use of high-performance technology to ensure a guaranteed trust and reliability. This allows all users to benefit from the security of this network. Indeed, cryptocurrency is the future of financial and wealth creation. Against this backdrop, Reaching Star is not only investment focused but child focused.

There is a massive need for a financial support network for child sponsoring organizations to function effectively. The challenge has always been a lack of a sustainable system that can ensure uninterrupted administration.

Reaching Star projects the establishment of a decentralized alternative where participants have the opportunity to be under the payroll of investors. With this, users can trust all parties involved in this scheme as it is purely non-profit. Beyond the financial market, Reaching Star will ensure there is an honest performance by the sponsorship organizations.

## 2.1

# WHY IS REACHING STAR DIFFERENT?

Reaching star is a cryptocurrency community-based investment platform for child funding. We are not just into money-making but concerned about the needy around us. We care that much. It is the pioneer in a child sponsoring cryptocurrency token project.

It aims to help children and youth reach their full potential and advance their course by eradicating poverty.

We are not just about profit-making, our other primary objectives are philanthropy and social well-being such as education, quality health and good food.

## 2.2

# REACHING STAR CHILD SPONSORSHIP OBJECTIVES

A major problem facing cryptocurrencies is the right project, hence duplication of existing ones. With the launch of hundreds of projects, carving a distinctive niche becomes cumbersome. The Reaching Star group has been able to look around in society to see an urgent need in securing the future. In securing the future of the society at large, starting with the foundation becomes expedient. The needs of a child are a key player in the development of the future. With the right empowerment tool, under the right conditions, a child can produce great inventions for the development of the economy.

The Reaching Star sponsorship-based cryptocurrency project is a tool for child development. The main idea is to help reduce the burden of poverty for children in millions. We intend to alleviate poverty and hunger.

## 2.3

# WHAT WE DO WITH THE CRYPTOCURRENCY SPONSORSHIP FUNDS

Cryptocurrency sponsorship funds can be used to support our Cryptocurrency funds generated from cryptocurrency donations to provide relief for child support organizations.

## 2.3.1 CHILD SPONSORSHIP SCHEMES

Lots of children miss out on economic benefits due to the inability of their families to afford such. The community-based investment goal will provide quality welfare needs.

Our action point includes filling the gap between knowing the problems (in this case needs) of the children and providing the solution.

Simply put we invest to feed and provide other basic amenities such as clothing, housing, electricity, healthcare, etc.

## 2.4

# WHO CAN USE REACHING STAR?

Anyone can be a part of the network. The criteria are to be philanthropic and have compassion for the less privileged. The network operates a system trustworthy enough for partners to feel safe.

An investment in our token affords you the opportunity of being a holder of a distinct innovation and a pioneer project participant. This is an opportunity that gives room to run an investment package as well as being philanthropic. By this, we mean contributing to the development and future of a child.

### 3.0

## HOW IT OPERATES

The Reaching Star Token is solely designed for connections on a deep community -relation based project. Its mission is to create a more stable environment for the child in deprivation.

### 3.1

## WHERE TO GET RSTKN

We are a success in progress, and currently available only on pre-sale for now. The RSTKN will be tradable on various exchanges in the nearest future. Work is in top gear to be available on Pancakeswap from the 1st of July for now. Check the official website for updated information regularly.

### 3.2

## ZENITH PLAN

Our goal is to make the experience with Reaching Star a seamless one. Every participant is sure to benefit in one way or another. For us, satisfaction for everyone is a top priority.

### 4.0

## SECURITY AND TRANSPARENCY GUARANTEED

We guarantee transparency in every aspect of cryptocurrency activity. this will not be ignored or relegated to the background. Wallet audits are rather impossible and the high rate of fraud, hacking and other cybercrime has reduced the high trust in the cryptocurrency ecosystem. It becomes necessary for users and merchants to be mindful of the exchanges they use. The Reaching star project guarantees the elimination of these risks. By ensuring that the total number of Reaching Star Tokens in circulation is well accounted for. They would be backed up with the corresponding currency equivalent. Thereby resolving any solvency issue that may crop up.

### 5.0

## TOKEN METRICS

Cryptocurrency has a lot of potential benefits. It promises a huge return on investment based on its unique system of operation. Reaching Star is not going to be different. Every possible benefit would be derived for the good of participants.

5.1

## DISTRIBUTION

50% of the total supply is on pre-sale currently. Whatever is raised will go into liquidity in Pancakeswap beginning from 1st July. 10% of the token supply already exists in the sponsorship wallet. 5% Development wallet, 5% founder wallet, and a 30%/burned wallet.

5.2

## TAX

The 10% transaction tax is divided into two parts. The first is a 5% tax reward to investors and another 5% on liquidity.

5.3

## CONTRACT ADDRESS

0x3f1eb7ebed9764c3636bebd0515375eb55e1afef

5.4

## TRACK PRICE

Reaching Star is going to be quite competitive even for a new cryptocurrency. The price will be set on the 1st of July, and it will have an opening price of \$0.000000001.

5.5

## Total supply in child sponsoring wallet

100,000,000,000,000.

5.6

## Total in pre-sale

500,000,000,000,000

5.7

## Total burned

300,000,000,000,000

5.8

## Total in Development wallet

50,000,000,000,000

5.9

## Total in founder's wallet

50,000,000,000,000

- 50% Pre Sale
- 30% Burned
- 10% Child Sponsor
- 5% Development
- 5% Founder

## 6.0

# LIQUIDITY

Reaching Star is going to be quite competitive even for a new cryptocurrency. The price will be set on the 1st of July, and it will have an opening price of \$0.000000001.

## 7.0

# ROADMAP

Reaching Star is truly gunning for the sky. Its goal is to build a formidable team that can contend squarely with the big players in the industry. The various projects on the ground are indications that lives would be greatly impacted. Here is a sneak peek at some of the goals it plans to achieve.

By tracking our roadmap, quality service delivery is a guaranteed promise.

8.0

## LIMITATION OF IMPLEMENTATION

We understand that users would have to fully trust our implementation process as beginners. Issues such as bankruptcy, absconding with funds, freezing funds etc. It is expedient to know that almost all cryptocurrencies tackled this phase. Nevertheless, we are building a system that is sure to be around for a very long time.

Another limitation envisaged is the fact that fraudulent organizations would want to tap into this opportunity to syphon funds for for-profit purposes. Reaching Star is already set to handle such limitations and secure participants' funds.

9.0

## MAIN APPLICATIONS

Reaching Star group intends to focus mainly on sponsorship.

10.0

## FOCAL POINTS

The focal point would be on organizations with a purpose that is helping to sharpen lives. Caution would be taken to avoid scammers and fraudsters. Nevertheless, thorough background checks to verify the authenticity of the child sponsoring organizations.

11.0

## SECURITY

All funds would be duly accounted for. The idea is to prevent them from landing in private accounts or for use other than the intended purpose.

12.0

## CONCLUSION

**The distinct features of the Reaching Star project make it a highly marketable token. It is the first of its kind and there is no better way to give back to society than to invest in the well-being of a child. Different from the other crypto tokens out there, we encourage a long-term buy. As a community, we encourage users to share their compassionate virtues even in the economic/financial world.**
