# ABSTRACT

A user Friendly system for the creation,use,and management of smart contracts may dramatically expand the rate of commercial and consumer adoption of Blockchain Technology. While Blockchain ( or distribute ledger technology ) has the potential to recast the foundations of eletronic commerce and Data Storage , the techology's use by non-computer profesionals have been limited by lack of user friendly aplications. SOS Token unleashes the speed, cost-reduction,security of storage and security benefits smart contracts for individuals and businesses. It represent the next generation of smart contracts that allows anyone to create one - without proggramming knowledge.

A Majority of Decentralized platforms, Claiming to offer smart contracts, has one flaw in common; they make it hard for novices to create smart contracts. This discourages users who want to bask in the benefits of smart contracts.

SOS Token is created to add innovative techologies whith a simplicity that allow anyone, whether a novice in the world of blockchain to a professinal , who as backed in the waters of the blockchain.

We believe that blockchain and smart contract technologies are very important and can be used in a lot of aspects, but a lot of people are confused on how that work or how to create a smart contract. With Ethlimited, anyone can benefit from smart contracts and save the issues that come with decentralization.

#### Ease of Use

Our smart contract creation platform is user-friendly. Thousands of ready made templates to choose from will be available for customization.

#### Minimal Cost

Using our smart contract templates and platform wouldn't hurt your budget. Would cost you less than a cup of coffee.

#### Flexibility

We will accept SOS Token, Ethereum and Bitcoin as payment for using our platform. We might add a few cryptocurrencies in the future.

#### Marketplace

Cannot find a smart contract template that doesn't suit your needs? Need a customized template, but can't do it yourself? Hire another platform user through our Marketplace.
